

Organize your digital property with affordable data warehousing

iomega[®] NAS servers quickly add reliable and affordable online data storage

IT budgets are shrinking and Data Warehousing storage needs are growing. Every day you gather, create and attempt to organize large amounts of data. Perhaps you run a competitive retail business where managing product inventory is vital—where gathering data to make informed buying/pricing decisions are pivotal to your success or failure. Such volumes of data can be large and server performance is important.

The same issues apply for marketing gurus trying to find trends in their customers' buying habits, life styles, and interests. They have large volumes of data but mining the data and finding pertinent information takes a lot of time and storage space. This information must be found and used quickly before it is no longer relevant. There is an affordable and simplified solution—an iomega NAS server.

The smart online data warehousing storage solution

iomega NAS servers provide the fast, high capacity and multi-platform online data storage you need. Storage costs are affordable (less than \$.02 per megabyte) and expandable to meet your growing demands.

- ▶ Fast with large capacity
- ▶ Expandable to easily address growing demands
- ▶ Uptime is maximized
- ▶ Data is accessible and convenient
- ▶ Reliable and affordable
- ▶ Easy-to-use, plug-and-play solution

iomega NAS servers maximize data accessibility by consolidating multiple formats and data types on a server appliance designed solely to store, serve and protect critical information. With plug-and-play connectivity, you can deploy your iomega NAS server in less than 15 minutes, and the streamlined design requires as little as four hours of maintenance per year. And if you need more capacity, just add another iomega NAS—for a truly scalable storage solution.

Storage relief for your network.

iomega NAS.

Additional Solutions Guides:

- ▶ Backup intermediary

iomega® NAS server advantages vs. a general-purpose server

- ▶ Up to a 50% lower purchase cost
- ▶ Significantly lower total cost of ownership
- ▶ Easy installation with no network downtime
- ▶ Deployment in under 15 minutes
- ▶ Automatic data consolidation and file sharing among all Windows®, Macintosh®, NetWare®, UNIX and Linux clients
- ▶ As little as four hours per year in ongoing maintenance
- ▶ Remote management flexibility and convenience

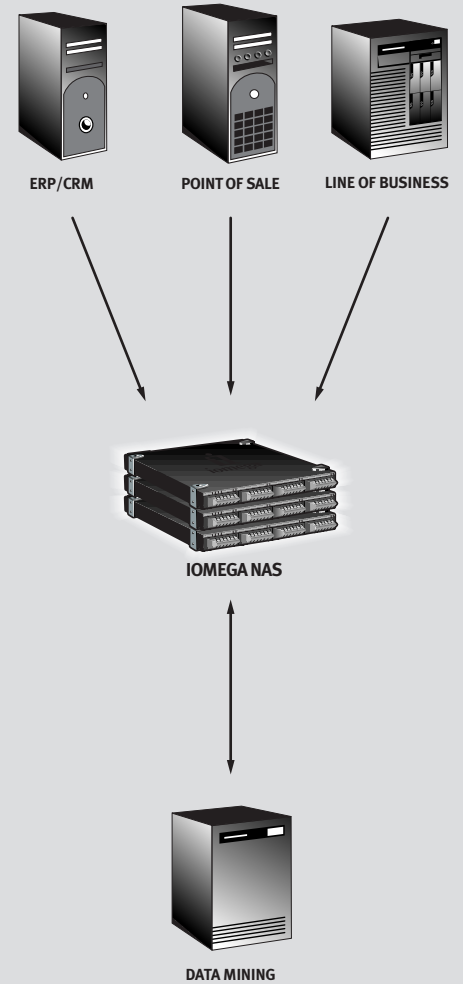

iomega® QuikSync™ 3 Software

Protecting critical client data is hassle free with iomega QuikSync software. Copies of designated files are automatically saved and maintained on your iomega NAS server based on preferences set by your NAS administrator.
