

## Make your data management system healthy

*iomega® NAS servers are secure, affordable and keep your network critical information safe*

The healthcare industry must comply with regulations, legislation and confidentiality issues. As a result, large volumes of information must be stored reliably, securely and at an affordable price. Technology facilitates data creation and the need to track and store more information. Compliance with HIPAA regulations by 2003 will force the need for additional network storage. And future technology will require streamlined data collection, processing and collaboration. Clinics need a low-cost solution that is easy and quick to implement. Doctors and staff need quick and reliable access to patient files and case-critical documents.

There is an affordable and simple solution—network storage with an iomega NAS server.

## *The prescribed storage solution for your network*

iomega NAS file servers provide reliable, secure, and cost-effective solutions for managing volumes of data and information, archiving and storage. Critical information is available and accessible.

- ▶ High-speed server performance
- ▶ Easy, plug-and-play installation
- ▶ Scalable – add network storage as needed
- ▶ Up to 1/3 the cost of a general purpose server

With iomega NAS servers, you have a choice of capacities, operating systems, device connectivity and performance as well as features for maximum compatibility. iomega NAS servers maximize data accessibility by consolidating multiple formats and data types on a server appliance designed solely to store, serve and protect critical backup. With plug-and-play connectivity, you can deploy your iomega NAS server in less than 15 minutes. And if you need more capacity, just add another iomega NAS—for a truly scalable and affordable backup storage.

**Iomega® NAS server advantages vs. a general-purpose server**

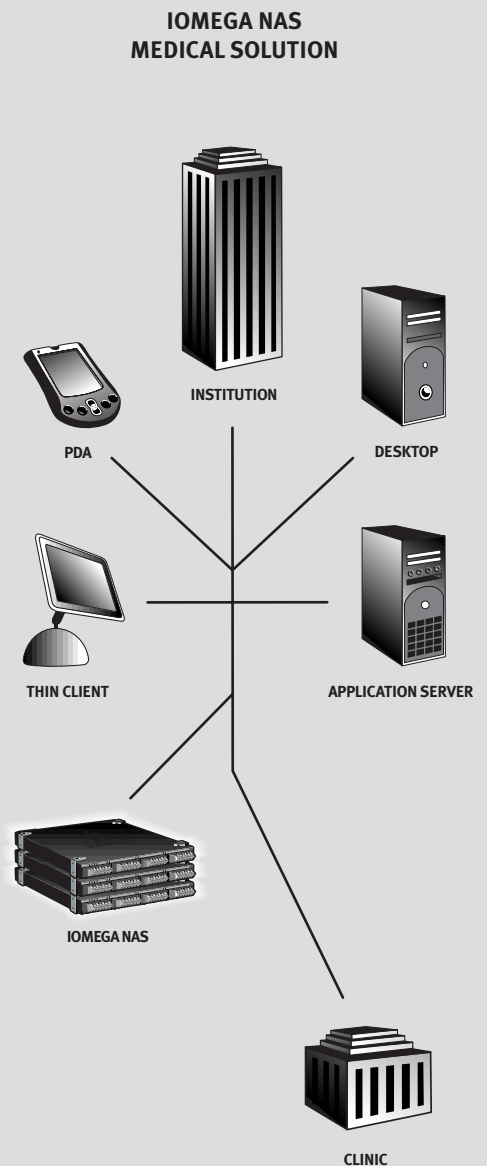

- ▶ Up to a 50% lower purchase cost
- ▶ Significantly lower total cost of ownership
- ▶ Easy installation with no network downtime
- ▶ Deployment in under 15 minutes
- ▶ Automatic data consolidation and file sharing among all Windows®, Macintosh®, NetWare®, UNIX and Linux clients
- ▶ As little as four hours per year in ongoing maintenance
- ▶ Remote management flexibility and convenience

**Iomega® QuikSync™ 3 Software**

Protecting critical client data is hassle free with Iomega QuikSync software. Copies of designated files are automatically saved and maintained on your Iomega NAS server based on preferences set by your NAS administrator.
