

Add convenient and reliable network storage for your remote users

iomega® NAS servers are the affordable, simplified solution to keep your branch/remote office close to home

In business, the ability to transfer and access reliable data is mission critical. This is especially true if your business has branch/remote office users. Your data needs to be stored on high speed, large volume servers that are efficient and secure. Downtime is expensive, so you need a solution that is simple to install and easy-to-use. Financial records, inventory reports, database updates, customer documents, etc. quickly push your remote storage capacity to the limit.

You need a low-cost storage solution with an efficient way to consolidate, backup and restore important data as well as off-load network traffic and relieve congestion. iomega® NAS file servers are your scalable and cost-effective solution with comprehensive connectivity and multi-platform support.

Unlimited, reliable storage any time, anywhere

iomega NAS file servers deliver the fast, high capacity and accessible data storage technology you need. Storage costs are affordable (less than \$.02 per megabyte) and expandable to meet your growing demands.

- ▶ Scalable—add network storage as needed
- ▶ Fast and reliable access to files
- ▶ Easy-to-use, plug-and-play solution
- ▶ Uptime is maximized

With iomega NAS servers, you have a choice of capacities, operating systems, device connectivity and performance as well as features for maximum compatibility. iomega NAS servers maximize data accessibility by consolidating multiple formats and data types on a server appliance designed solely to store, serve and protect critical backup. With plug-and-play connectivity, you can deploy your iomega NAS server in less than 15 minutes – up to 1/3 the cost of a general-purpose server. And if your remote/branch office needs additional server capacity, just add another iomega NAS unit—a truly scalable and affordable storage solution.

Storage relief for your network.

iomega NAS.

Additional Solutions Guides:

- ▶ Backup intermediary
- ▶ CAD/CAM, creative imaging and graphics
- ▶ Critical data security
- ▶ Email storage
- ▶ Engineering firms
- ▶ Financial/accounting firms
- ▶ Law firms
- ▶ Medical institutions, hospitals, doctor clinics
- ▶ Online data warehousing
- ▶ Schools and universities
- ▶ Service providers
- ▶ Software distribution
- ▶ Storage consolidation
- ▶ Student computer labs
- ▶ Workgroup file sharing/backup and recovery

iomega® NAS server advantages vs. a general-purpose server

- ▶ Up to a 50% lower purchase cost
- ▶ Significantly lower total cost of ownership
- ▶ Easy installation with no network downtime
- ▶ Deployment in under 15 minutes
- ▶ Automatic data consolidation and file sharing among all Windows®, Macintosh®, NetWare®, UNIX and Linux clients
- ▶ As little as four hours per year in ongoing maintenance
- ▶ Remote management flexibility and convenience

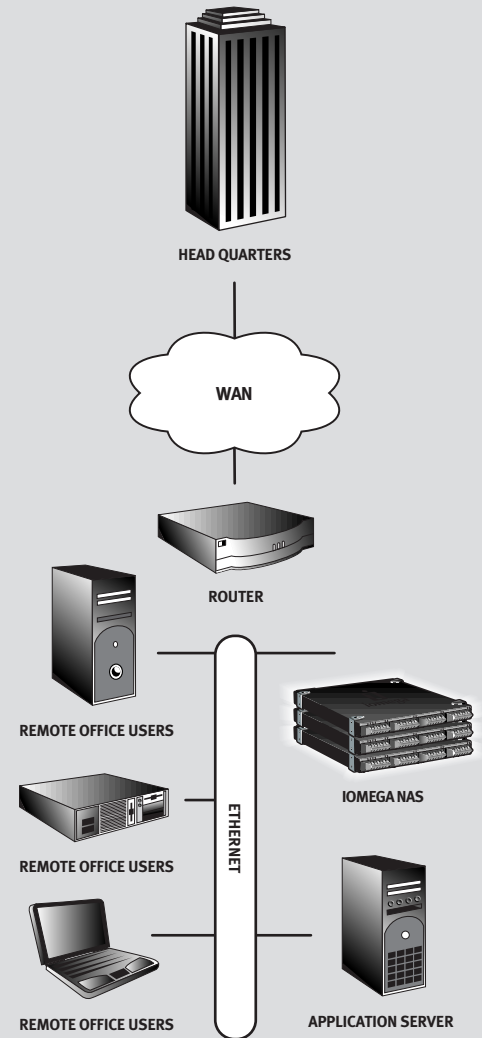

iomega® QuikSync™ 3 Software

Protecting critical client data is hassle free with iomega QuikSync software. Copies of designated files are automatically saved and maintained on your iomega NAS server based on preferences set by your NAS administrator.
