

It's academic. Now you can solve your data management network problems

iomega® NAS file servers are your affordable, cross-platform data management solution

Your database, e-mail, lab and document storage needs grow while your IT budget shrinks. Every day, more research and administrative documentation must be updated and archived. Labs and libraries are packed with students generating information. Student/faculty records, e-mails, and attachments are taking up more storage space than ever! Network traffic is at an all-time high.

You need a low-cost storage solution with an efficient way to consolidate, auto-archive and restore important data as well as off-load network traffic and relieve congestion. Also, you need something that is simple to install and easy-to-use. iomega NAS file servers are your scalable and cost-effective solution that provides comprehensive connectivity and simple multi-platform support.

The perfect answer for your network

iomega NAS file servers are a fast, simple and cost-effective way to protect and share data on your school's network.

- ▶ School-wide information is stored centrally
- ▶ Server performance is high-speed
- ▶ Installation is plug-and-play
- ▶ Scalable – add network storage as needed
- ▶ Maximize your uptime
- ▶ Up to 1/3 the cost of a general-purpose server

With iomega NAS servers you have a choice of capacities, operating systems, connectivity and performance as well as features for maximum compatibility. And with plug-and-play connectivity, you can deploy an iomega NAS server in less than 15 minutes. If you need more capacity, just add another iomega NAS—all within a minimum acquisition and maintenance budget.

Storage relief for your network.
