

Easily support and secure data that is managed by others

iomega[®] NAS appliances are the affordable and reliable data storage solution for your service providers

The cost to manage a large ERP system, CRM application or even your own web site can be expensive. You have hired a team of people to provide the special application service and management for you. Their service is important, but the information they safeguard is mission critical. It must be stored reliably. Your data and the application must live up to your service agreement.

You need a large storage solution that can be expanded easily and quickly. You need a secure solution that provides control from a remote location. Achieve this with an affordable iomega NAS appliance—the simple solution to secure your service provider data.

The ideal storage solution for your critical data

iomega NAS file servers provide the fast, high-capacity and multi-platform data storage you need. Storage costs are affordable (less than \$.02 per megabyte) and expandable to meet your growing demands.

- ▶ Cross-platform compatibility
- ▶ Support for a variety of storage intensive applications and backup agents for data protection
- ▶ Maximize network uptime
- ▶ Easy-to-use and maintain with plug-and-play installation

With iomega NAS servers you have a choice of capacities, operating systems, connectivity and performance as well as features for maximum compatibility. And with plug-and-play connectivity, you can deploy an iomega NAS server in less than 15 minutes. If you need more capacity, just add another iomega NAS—all within a minimum acquisition and maintenance budget.

Storage relief for your network.

iomega NAS.

Service Provider

iomega® NAS server advantages vs. a general-purpose server

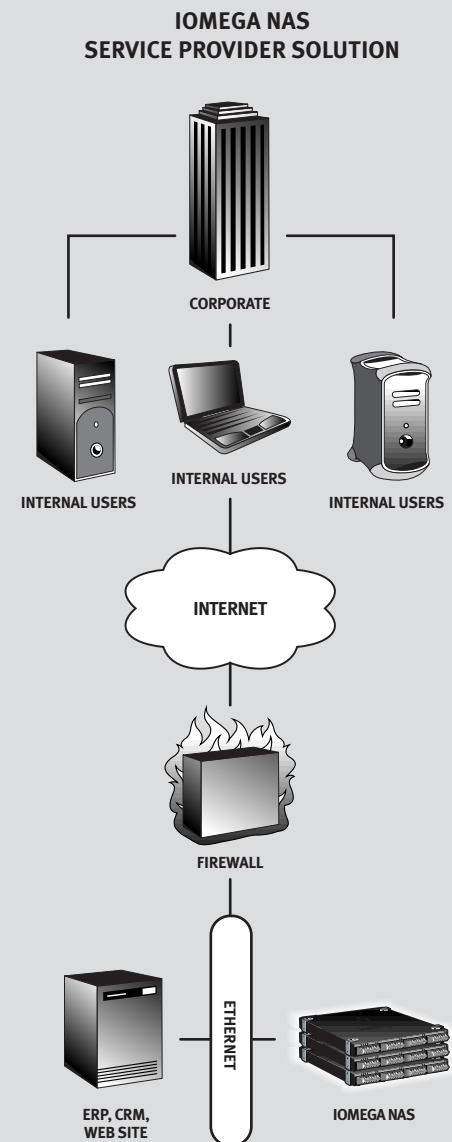

- ▶ Up to a 50% lower purchase cost
- ▶ Significantly lower total cost of ownership
- ▶ Easy installation with no network downtime
- ▶ Deployment in under 15 minutes
- ▶ Automatic data consolidation and file sharing among all Windows®, Macintosh®, NetWare®, UNIX and Linux clients
- ▶ As little as four hours per year in ongoing maintenance
- ▶ Remote management flexibility and convenience

iomega® QuikSync™ 3 Software

Protecting critical client data is hassle free with iomega QuikSync software. Copies of designated files are automatically saved and maintained on your iomega NAS server based on preferences set by your NAS administrator.
