

Increase productivity with network attached storage

iomega® NAS servers are a reliable and affordable solution for your network

Distributing operating systems and applications is a corporate-wide routine. In addition to creating workstations, device profiles and images, you must efficiently and safely manage user data and configuration files. The process is mission critical and you've got to do it quickly and cost-effectively. You need to minimize network traffic as well as ensure cross-platform compatibility. But with budget and staff cuts, the challenge is to find a low-cost solution that will do it all.

With iomega NAS, you can have it all – speed, simplicity and redundancy at the cost of a tape-based solution.

Network performance that is reliable and affordable

iomega NAS servers provide a low-cost, high-speed solution for imaging, distribution, storage and backup of workstations, servers and other devices.

- ▶ Rapid restore, plug-and-play installation
- ▶ Zero downtime, and uninterrupted backups
- ▶ Support for a variety of imaging applications and backup agents
- ▶ Redundant data protection
- ▶ Easy-to-use and maintain

With iomega NAS servers, you have a choice of capacities, operating systems, device connectivity and performance as well as features for maximum compatibility. iomega NAS servers maximize data accessibility by consolidating multiple formats and data types on a server appliance designed solely to store, serve and protect critical backup. With plug-and-play connectivity, you can deploy your iomega NAS server in less than 15 minutes at about 1/3 the cost of a general purpose server. And if you need more capacity, just add another iomega NAS—for a truly scalable and affordable backup storage.

Storage relief for your network.

iomega NAS.

Additional Solutions Guides:

- ▶ Backup intermediary
- ▶ Branch/remote office storage and collaboration
- ▶ CAD/CAM, creative imaging and graphics
- ▶ Critical data security
- ▶ Email storage
- ▶ Engineering firms
- ▶ Financial/accounting firms
- ▶ Law firms
- ▶ Medical institutions, hospitals, doctor clinics
- ▶ Online data warehousing
- ▶ Schools and universities
- ▶ Service providers
- ▶ Storage consolidation
- ▶ Student computer labs
- ▶ Workgroup file sharing/backup and recovery

iomega® NAS server advantages vs. a general-purpose server

- ▶ Up to a 50% lower purchase cost
- ▶ Significantly lower total cost of ownership
- ▶ Easy installation with no network downtime
- ▶ Deployment in under 15 minutes
- ▶ Automatic data consolidation and file sharing among all Windows®, Macintosh®, NetWare®, UNIX and Linux clients
- ▶ As little as four hours per year in ongoing maintenance
- ▶ Remote management flexibility and convenience

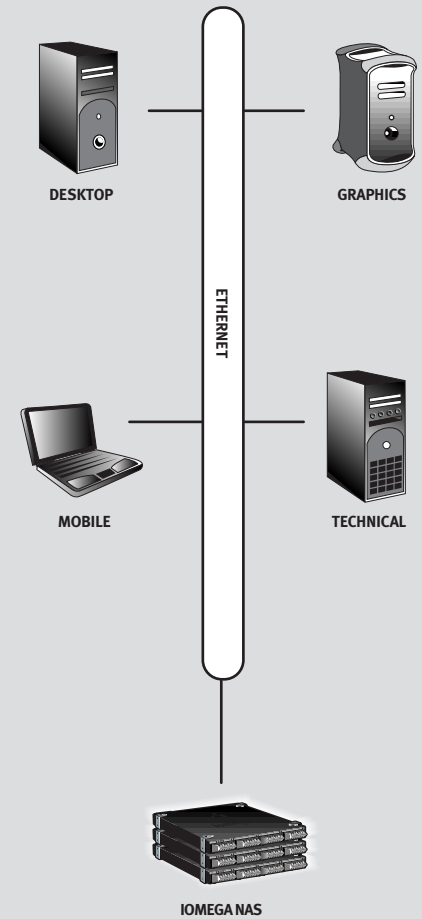

iomega® QuikSync™ 3 Software

Protecting critical client data is hassle free with iomega QuikSync software. Copies of designated files are automatically saved and maintained on your iomega NAS server based on preferences set by your NAS administrator.
