

## Unlimited network storage for cramming your lab user data

*iomega® NAS file servers are your scalable, multi-platform data storage solution*

Your school's computer labs are packed with students who churn out the files, projects, programs, spreadsheets, presentations, data, graphics, web pages, and much more. As your student lab grows, so does your network traffic and storage requirements. You need a reliable storage solution that is low-cost and scalable. You need an efficient way to consolidate, backup, auto archive and restore. Downtime creates a huge bottleneck not to mention upset students.

iomega NAS file servers are your scalable and cost-effective solution that provides comprehensive connectivity and simple multi-platform support.

### *One choice for multiple problems.*

iomega NAS file servers provide fast, simple and low-cost solutions for data and information storage, archiving and consolidation.

- ▶ Store all lab-generated information centrally
- ▶ High-speed server performance
- ▶ Installation is plug-and-play
- ▶ Endless scalability
- ▶ Increased uptime
- ▶ About 1/3 the cost of a general-purpose server

With iomega NAS servers you have a choice of capacities, operating systems, connectivity and performance as well as features for maximum compatibility. And with plug-and-play connectivity, you can deploy an iomega NAS server in less than 15 minutes. If you need more capacity, just add another iomega NAS—all within a minimum acquisition and maintenance budget.

**Storage relief for your network.**

**iomega NAS.**

### ***Additional Solutions Guides:***

- ▶ Backup intermediary
- ▶ Branch/remote office storage and collaboration
- ▶ CAD/CAM, creative imaging and graphics
- ▶ Critical data security
- ▶ Email storage
- ▶ Engineering firms
- ▶ Financial/accounting firms
- ▶ Law firms
- ▶ Medical institutions, hospitals, doctor clinics
- ▶ Online data warehousing
- ▶ Schools and universities
- ▶ Service providers
- ▶ Software distribution
- ▶ Storage consolidation
- ▶ Workgroup file sharing/backup and recovery

**iomega® NAS server advantages vs. a general-purpose server**

- ▶ Up to a 50% lower purchase cost
- ▶ Significantly lower total cost of ownership
- ▶ Easy installation with no network downtime
- ▶ Deployment in under 15 minutes
- ▶ Automatic data consolidation and file sharing among all Windows®, Macintosh®, NetWare®, UNIX and Linux clients
- ▶ As little as four hours per year in ongoing maintenance
- ▶ Remote management flexibility and convenience

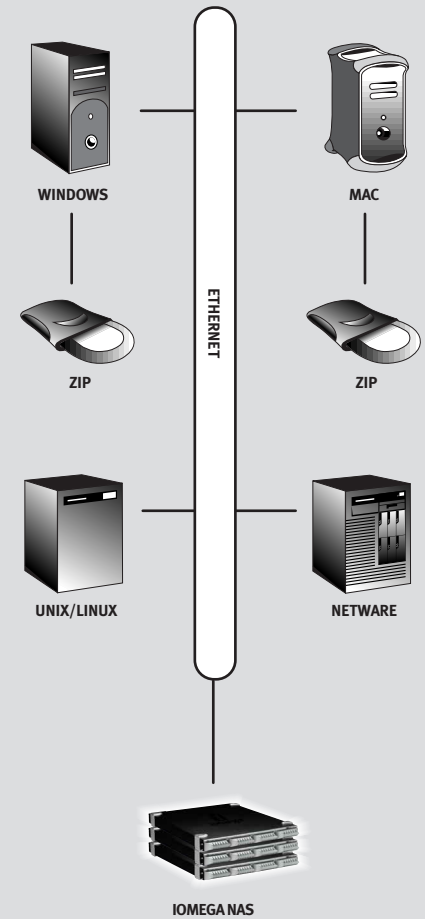

**iomega® QuikSync™ 3 Software**

Protecting critical client data is hassle free with iomega QuikSync software. Copies of designated files are automatically saved and maintained on your iomega NAS server based on preferences set by your NAS administrator.
