

## Increase team productivity with easy-to-use file sharing and data storage

*iomega® NAS file servers are a reliable and affordable backup solution for your workgroups*

Workgroup applications and teams are growing while IT budgets and staff continues to diminish. More than ever, workgroups depend upon file sharing and reliable networked data backup to communicate and work effectively together. Lost or unavailable information can lead to failure.

File sharing, archiving and backup technology are seemingly unimportant concerns for workgroups. But reality is workgroups expect volumes of storage space and simple-to-use, high-speed access to their data and applications. Team productivity and collaboration is not effective if network file sharing is non-existent or unreliable. iomega NAS file servers are your scalable and cost-effective solution to provide reliable and comprehensive network connectivity.

### *The perfect workgroup file sharing solution.*

iomega NAS file servers provide low-cost, high-speed solutions for multi-platform file maintenance, storage and data consolidation so your workgroups can share and protect information.

- ▶ Files, applications, and data are stored centrally
- ▶ Backup agent can be preinstalled or can be added to the system without issue
- ▶ Enjoy high-speed performance with plug-and-play installation
- ▶ Increased uptime with endless scalability

With iomega NAS, you have a choice of capacities, operating systems, connectivity, performance and data reliability as well as features for maximum compatibility. This is your optimum workgroup file and data storage choice (and all for about 1/3 the cost of a general-purpose server)! iomega NAS servers maximize accessibility by consolidating multiple formats and data types on a server appliance designed solely to store, protect and share team-critical information.

**Storage relief for your network.**

**iomega NAS.**

### **Additional Solutions Guides:**

- ▶ Backup intermediary
- ▶ Branch/remote office storage and collaboration
- ▶ CAD/CAM, creative imaging and graphics
- ▶ Critical data security
- ▶ Email storage
- ▶ Engineering firms
- ▶ Financial/accounting firms
- ▶ Law firms
- ▶ Medical institutions, hospitals, doctor clinics
- ▶ Online data warehousing
- ▶ Schools and universities
- ▶ Service providers
- ▶ Software distribution
- ▶ Storage consolidation
- ▶ Student computer labs

**iomega® NAS server advantages vs. a general-purpose server**

- ▶ Up to a 50% lower purchase cost
- ▶ Significantly lower total cost of ownership
- ▶ Easy installation with no network downtime
- ▶ Deployment in under 15 minutes
- ▶ Automatic data consolidation and file sharing among all Windows®, Macintosh®, NetWare®, UNIX and Linux clients
- ▶ As little as four hours per year in ongoing maintenance
- ▶ Remote management flexibility and convenience

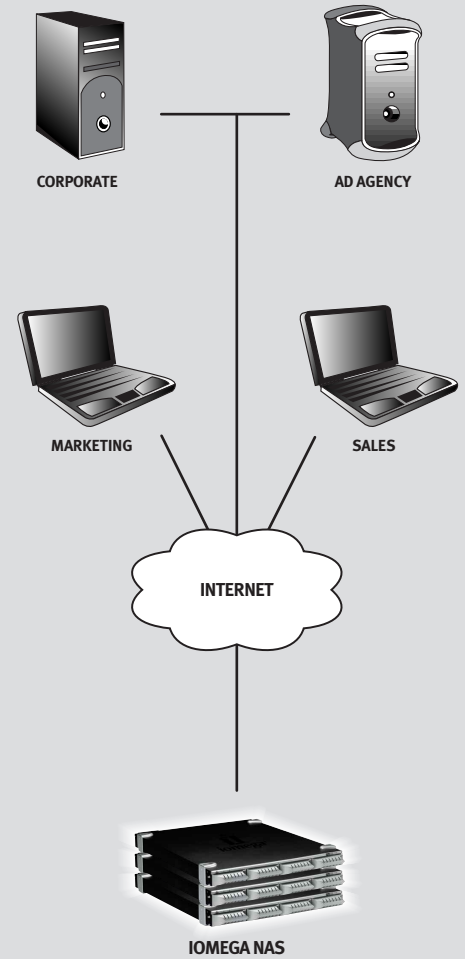

**iomega® QuikSync™ 3 Software**

Protecting critical client data is hassle free with iomega QuikSync software. Copies of designated files are automatically saved and maintained on your iomega NAS server based on preferences set by your NAS administrator.
