

IOMEGA® PROTECTION SUITE SOFTWARE

Iomega Protection Suite

- >> McAfee® VirusScan Plus (PC)
- >> Iomega® QuikProtect (PC/Mac)
- >> Retrospect® Express (PC/Mac)
- >> MozyHome™ Online (PC/Mac)

Protect Your Data and Your Computer!

Receive a suite of protection solution software when you purchase Iomega Portable and Desktop Hard Drives! Iomega now includes McAfee® VirusScan Plus, Iomega QuikProtect, EMC® Retrospect® Express Backup software, and MozyHome™ Online Backup service to protect both your data and your computer.

ANTI-VIRUS Iomega offers a free six month subscription of the powerful McAfee VirusScan Plus software as part of a comprehensive Protection Suite. McAfee VirusScan Plus software protects your computer with anti-virus and anti-spyware that detects, blocks, and removes viruses, spyware, and adware from your computer before you even know it's there. Two-way firewall protection lets you confidently use the Internet anytime knowing that hackers can't get access to your computer or data. An anti-phishing feature alerts you to web sites that may try to steal your identity. McAfee SiteAdvisor® warns you with color coded ratings about unsafe web sites. McAfee VirusScan Plus is available for PC users only.

QUICK DATA BACKUP If you just need a simple file level backup with easy drag-and-drop

functionality, Iomega QuikProtect software is the perfect solution. It provides a simple wizard for first time protection setup and can save your data to external hard drives or networked drives. Iomega QuikProtect is available for both PC and Mac users.

COMPLETE SYSTEM BACKUP Iomega offers your choice of three EMC Retrospect versions with its Protection Suite – choose EMC Retrospect HD for Windows, EMC Retrospect Express for Windows, or EMC Retrospect for Mac. EMC Retrospect software delivers proven data protection capabilities in an easy-to-use software package. Back up your entire system or just critical files. You decide. It installs in minutes and a setup wizard leads you step-by-step through a backup routine or system restore.

ONLINE BACKUP 2GB of free online backup capacity is included with MozyHome Online Backup service as part of Iomega's Protection Suite. This means you can backup and restore your most important data from any computer with internet access, at any location. 128-bit SSL encryption protects your data backup. MozyHome is available for both PC and Mac.

Iomega Protection Suite software is offered on most Iomega hard drive products (see specific models for details)
