

IOMEGA FAMILY OF MULTIMEDIA PRODUCTS

iomega® offers a suite of multimedia products that let you store, view, and enjoy your media collections:

- » Store & play videos and more with the iomega ScreenPlay™ Multimedia Drives
- » Expand your DVR capacity with the iomega DVR Expander
- » Burn & play DVDs and CDs with the Super DVD Writer and SuperSlim DVD Portable Writer

◀ iomega ScreenPlay Pro HD Multimedia Drive USB/AV/Ethernet

Enhance your media enjoyment with an iomega Multimedia Drive!

iomega's suite of innovative multimedia products enhance your media enjoyment with solutions to burn CDs and DVDs, store media collections, share and view high definition videos, and expand your DVR capacity to save more shows. From the simple Super DVD writers to the full featured ScreenPlay products, iomega has a multimedia solution to fit your digital life.

EASY iomega Super DVD Writers offer an easy, convenient way to burn single or double layer DVD discs or CDs. Software is included for one touch burning, jewel case label creation, and simple photo editing. For TV fans, the iomega DVR Expander effortlessly increases the capacity of your DVR –

the recording location is automatically managed by the DVR.

VERSATILE iomega ScreenPlay multimedia products play the most popular media formats, including MPEG4, DivX, AVI, MP3, WMA, and JPEG so you can easily enjoy any photo, audio or video file you have in your media collection.

HIGH-QUALITY iomega ScreenPlay products support high definition video (720p/1080i) and Dolby Digital audio formats and are a durable solution for securing your valuable media files. ScreenPlay HD and TV Link are both scalable to 1080i. ScreenPlay Pro HD plays files in native high definition.

ScreenPlay™ Multimedia Products

It's Showtime! Enjoy the convenience of watching digital files on your home theatre or TV without being connected to the computer! The Iomega ScreenPlay family of products are high quality multimedia players with easy remote control access that let you enjoy your digital collections of photos, videos, and music files.

In a compact, sleek black style to complement your home entertainment system, the **ScreenPlay HD Multimedia Drive** is a high capacity storage device that allows you to view your high-definition video. The ScreenPlay HD drive offers high-end features including video upscaling to 1080i, and MP3 and WMA playback. The ScreenPlay HD Multimedia Drive holds up to 500GB of photos, videos and music files, and is compatible with the latest media formats such as MPEG, DivX, MP3, WMA, and AC3. Simply load multimedia content onto your ScreenPlay HD drive via your computer, then enjoy your videos, music, and photos on your large screen TV or home entertainment system!

Add up to 1TB of capacity plus networking capabilities with the new **ScreenPlay Pro HD Multimedia Drive**! This multimedia player connects to your home network so you can store and access your video, music and photo collections. Easily browse your network to

select stored videos to view on your home theatre. Record video from a camera, cable box, or VCR with a one-touch record button. The sleek black ScreenPlay Pro Multimedia Drive supports native HD and is compatible with the latest media formats such as MPEG, DivX, MP3, WMA, and JPEG, plus supports USB WIFI adapter for wireless access (adapter sold separately).

Link up your digital media for high quality enjoyment! The **ScreenPlay TV Link** is an ultra-compact multimedia player that allows you to connect the digital storage you already own (USB hard drive, flash drive or Iomega REV® drive) to your TV and enjoy your movies, music and photos. With HDMI scalable to 1080i and the convenience of a full-function remote control, the ScreenPlay TV Link adds high quality multimedia features at a low-cost. Small enough to easily fit in your pocket, use the ScreenPlay TV Link to enjoy your media collections movies, photos, and music files on any TV at home or when traveling.

The ScreenPlay family of products are powered by Energy Star® qualified adapters for a better environment.

Powered by an ENERGY STAR® qualified adapter for a better environment

Iomega DVR Expander Drive

The **Iomega DVR Expander Drive** adds up to 1TB of storage capacity to your eSATA-enabled digital video recorder (DVR) so you can enjoy more TV and movies! Now compatible with both Pace® Americas cable set-top boxes and Scientific Atlanta Explorer digital video recorders. It stores up to 600 hours of standard-definition TV or 120 hours of high-definition TV

(1TB capacity). Easy to use, the recording location is automatically managed by the DVR. This compact, sleek drive sits horizontally or vertically (in stand) and quietly complements your home theatre experience. The Iomega DVR Expander is powered by an Energy Star qualified adapter for a better environment.

Check with your local cable service provider to confirm service compatibility.

Iomega DVD Writers

The Iomega Super DVD Writers offer an easy, convenient way to save your photos, videos, and music to CD or DVD discs. They support single and double layer DVD media so you can save the maximum on each disc. Nero® Essentials CD/DVD burning software is included with all writers for easy burning plus custom jewel case and label creation, and simple photo and video editing.

The **Iomega Super DVD Writer 22x** is fast with up to 22x DVD and 48x CD write speeds for

fast video authoring, editing and playback capabilities. This versatile writer supports DVD+R/RW and DVD-R/RW formats and is a great desktop option for saving and sharing home media and home office data.

The ultra-thin **Iomega SuperSlim DVD Portable Writer 8x** fits easily in your laptop bag or backpack so you can take it anywhere you go. It's USB powered so no need for bulky cables or power supplies. This drive is a great solution for the new ultra-compact laptops that don't include an internal writer.
